

Environmental, Health & Safety Policy

Knowles' Environmental, Occupational Health and Safety Management Systems ensure safe and environmentally friendly product designs, manufacturing processes and related business practices. Our vision, mission, values and beliefs commit us to provide a safe and healthful workplace for all and to minimize the impact of our operations on the environment. At specific facilities, we will maintain the EHS Management Systems based on ISO14001 and OHSAS18001 standards and continually improve its effectiveness. We are committed to comply with applicable EHS laws and legislation worldwide. We will promote EHS awareness and responsibility among our employees, and ensure that our EHS policy and requirements are communicated to our employees and other interested parties.
